

Summary:

Innovative React.js developer with experience in designing responsive, user-friendly web applications with optimizing application performance. Having expertise in front-end development using HTML5, CSS3, JavaScript, and state management with Redux. Seeking a good position to utilize my skills and abilities towards the growth of the organization through continuous learning and professional growth while being resourceful, innovative, and flexible.

Skills:

Languages & Tech Stack: ReactJs, Redux, HTML, CSS, SAAS, MaterialUI, Bootstrap, Javascript, NodeJs, NPM Packages.

Unit Testing: React Testing Libraries such as Jest and Enzyme

Project Management Tools: JIRA, Azure Devops, SonarQube

Development Tools: Visual Studio Code

API Testing Tools: Postman, JWT

Version Control: GitLab and GitHub

Work Experience:

Working as a System Engineer in TCS from Nov 2020 – till date

ROLES AND RESPONSIBILITIES :

- Designing and developing web pages using JavaScript, HTML, CSS.
- Developed and maintained modular react components for a web application, resulting in improved code reusability and efficiency.
- Integrated RESTful APIs to fetch and update data, ensuring seamless dataflow and synchronization with the backend.
- Implemented responsive designs and optimized application performance, resulting in a 20% increase in page load speed.
- Ensured good code coverage (a minimum of 80%) by implementing unit test cases using React Testing Libraries and Jest.
- Integrated login page with different connectors such as MSAL and SAP to provide authentication for a user.
- Collaborated with cross-functional teams to gather requirements, plan project timelines, and ensure successful project delivery within tight deadlines.
- Conducted code reviews and provided constructive feedback to team members, improving code quality and adherence to best practices.

- Utilized Git for version control and collaborated with team members using tools like GitHub and GitLab.
- Integrated new features to the existing application ensuring that it functions reliably, efficiently, and meets the needs of users.
- Deployed application on different servers through CI/CD pipeline like Jenkins and tracked the code coverage percentage through SonarQube tool.
- Involved in production deployments and fixed the production issues.
- Actively participated in Agile ceremonies, including sprint planning, daily stand-ups, and retrospectives.

HIGHLIGHTS :

- On The Spot Award for Development
- Best Team Award
- Many Client appreciation Mails for the good work.

PROJECT DETAILS

Client : Albertsons (from nov-2020 to feb-2022)

Project Domain : Web development

Current Role : ReactJs Developer

Project Description :

This project is a web-application for a major retail chain microservices (Albertsons). It mainly deals with the modernization of the existing mainframe legacy application into Azure Kubernetes. This application allows users to navigate to different stores by providing predefined values and reviewing their current DND status. It also allows users to place an entire store in DND mode and perform mathematical operations to check availability and calculate product prices. The primary focus of a front-end developer is to integrate RESTful APIs with React.js to create responsive and dynamic web applications, enhancing user experience and optimizing data retrieval and processing.

Client : Bayer (from march-2022 to till now)

Project Domain : Web development

Current Role : ReactJs Developer

Project Description :

This project is a web-application that aims to provide healthcare professionals, pharmacists, and consumers with a user-friendly platform to browse, search, and purchase a wide range of pharmaceutical products. This app hosts information regarding the different products offered by Bayer which is shareable through various asset type files which range from file types such as PDF, DOCX, PPTX, PPT, MP4, JPEG, PNG etc. as well as some analytical reports and dashboards for Admins to help enrich the contents of the website.

PERSONALITY TRAITS

- Organized, planned, and prioritized my work to manage time wisely.
- Co-ordinated with team and exchanges ideas for a better resolution.
- Managed a team and led it during offshore hours.
- Being a developer, I make use of my creativity to code efficiently and optimize it.
- Worked for different teams in my project and was able to adapt to different people and work.
- Supported working late nights during production releases and deadlines.

EDUCATION

BTECH - ELECTRONICS AND COMMUNICATION ENGINEERING

With CGPA of 8.7

VIGNAN'S INSTITUTE OF INFORMATION TECHNOLOGY

JNTUK Affiliated

2016-2020

BOARD OF INTERMEDIATE EDUCATION

With 97% in MPC

SRI CHAITANYA JUNIOR COLLEGE

2014-2016

SECONDARY SCHOOL CERTIFICATE(SSC)

With CGPA of 9.8

SRI CHAITANYA TECHNO SCHOOL

2013-2014
